

Why "lint-staged" log is different when is triggered by husky (v6)?

<https://github.com//typicode/husky/issues/968>

How to support custom user hooks in v6

<https://github.com//typicode/husky/issues/964>

Command not found when using yarn --cwd

<https://github.com//typicode/husky/issues/962>

Husky Postinstall error

<https://github.com//typicode/husky/issues/961>

Husky v6 require node 10.12

<https://github.com//typicode/husky/issues/960>

makesure node_modules/.husky is exist

<https://github.com//typicode/husky/issues/958>

Apply hook on sub-folder only

<https://github.com//typicode/husky/issues/957>

Docs don't mention supported hooks (i.e. all Git Hooks)

<https://github.com//typicode/husky/issues/956>

Hooks not working with #!/bin/sh on zsh

<https://github.com//typicode/husky/issues/953>

Documentation improvement?

<https://github.com//typicode/husky/issues/952>

Message reminding about the --no-verify option is missing

<https://github.com//typicode/husky/issues/946>

sh: husky: command not found

<https://github.com//typicode/husky/issues/945>

No such file or directory

<https://github.com//typicode/husky/issues/944>

Husky enforces sh?

<https://github.com//typicode/husky/issues/942>

Yarn 2 doesn't support prepublishOnly

<https://github.com//typicode/husky/issues/941>

post-checkout error in CI

<https://github.com//typicode/husky/issues/940>

v6's postinstall breaks Yarn 2's "workspaces focus" command

<https://github.com//typicode/husky/issues/939>

Pre commit hooks not running in Sourcetree

<https://github.com//typicode/husky/issues/938>

Having to run yarn install on every branch

<https://github.com//typicode/husky/issues/936>

Husky 6 - Docs - Update docs to inform users on how to set hook scripts as executable

<https://github.com//typicode/husky/issues/934>

How to call husky.sh inside hook using #!/usr/bin/env node?

<https://github.com//typicode/husky/issues/930>

Upgrade to v6 overwrites package.json "prepare" setup

<https://github.com//typicode/husky/issues/927>

Automatically installing git hooks

<https://github.com//typicode/husky/issues/925>

Migrating prepare-commit-msg and commit-msg hooks does not work as documented

<https://github.com//typicode/husky/issues/924>

Why the upgrades?

<https://github.com//typicode/husky/issues/921>
